Beyond Menu Our Story

Established in Bali in 1986 by our founder, Tabetta Rose, as PT Bali Boxes we started off by making small, decorative gift boxes made from local batik, ikat and silks. The business started on the kitchen floor with just one employee as the two sat together and figured out how to make these decorative boxes. From this humble beginning we created a collection of over 500 boxed gifts including boxed boxer shorts, more than 300,000 of which were sold worldwide!

As Bali began to turn into the global tourism destination that we know today, so too did demand for different items besides decorative boxes and gifts. We made our first custom menu covers in 1990 and from there the company has grown into a family of over 70 workers in our factory and dozens more in home industries around the island, many of whom have been with us from those early years, servicing a global clientele with a wide range of room, restaurant and spa accessories including tissue boxes, waste bins, laundry baskets, amenity trays, soap dispensers, beach bags, sandals, table-top items and of course, menu and room folders.

All our items can be custom-designed to complement your rooms, villas, public areas, conference rooms, spas and restaurants - our design team and skilled craftsmen love to be challenged to create the perfect bespoke collection for you!

Now known as Beyond Menu, we are proud to have worked with some of the most highly regarded hotels and resorts around the world and as we now enter the second generation of this family business our team continue to serve our clients with service befitting the best of hospitality.

The perfect meal starts from the moment your guest picks up the menu.
 With our wide range of designs and materials we can match your menus to suit your desired theme to help give your guests a meal to remember!

Beyond Menus - Coverings & Finishes

In Indonesia we are doubly blessed, not only with talented, creative and highly skilled craftsmen who pass their knowledge and expertise down to the next generation, but also with an abundance of shells, natural fibres and materials that can be crafted into a myriad of different designs.

A multitude of seashells that are farmed and painstakingly ground down and cut into various shapes and placed into mosaics often mixing the different shells to form exquisite patterns. On our swatchcard you will see some of the many designs possible. We can also provide wall panels.

Tough laminates of brown & white cocoshell, bamboo and cinnamon with a matt resin finish, available in many designs and patterns.

We work with a number of different woods and carefully craft them in a variety of finishes, stains and colour-washes to suit your decor

There are many natural fibres in Indonesia, they are dried and woven into different patterns. Rattan, pandan, lontar, water hyacinth, banana and wood bark create unique coverings on many of our folders and accessories giving an organic island feeling to your resort

Copper and brass can be fashioned into many finishes, our experienced metalworkers create beautiful wine coolers, lamps, bowls, platters & buffet-ware. We also use dimpled and woven metals in our folder designs.

Beautiful mosaics of glass & mirror come in a rainbow of colours & motifs.

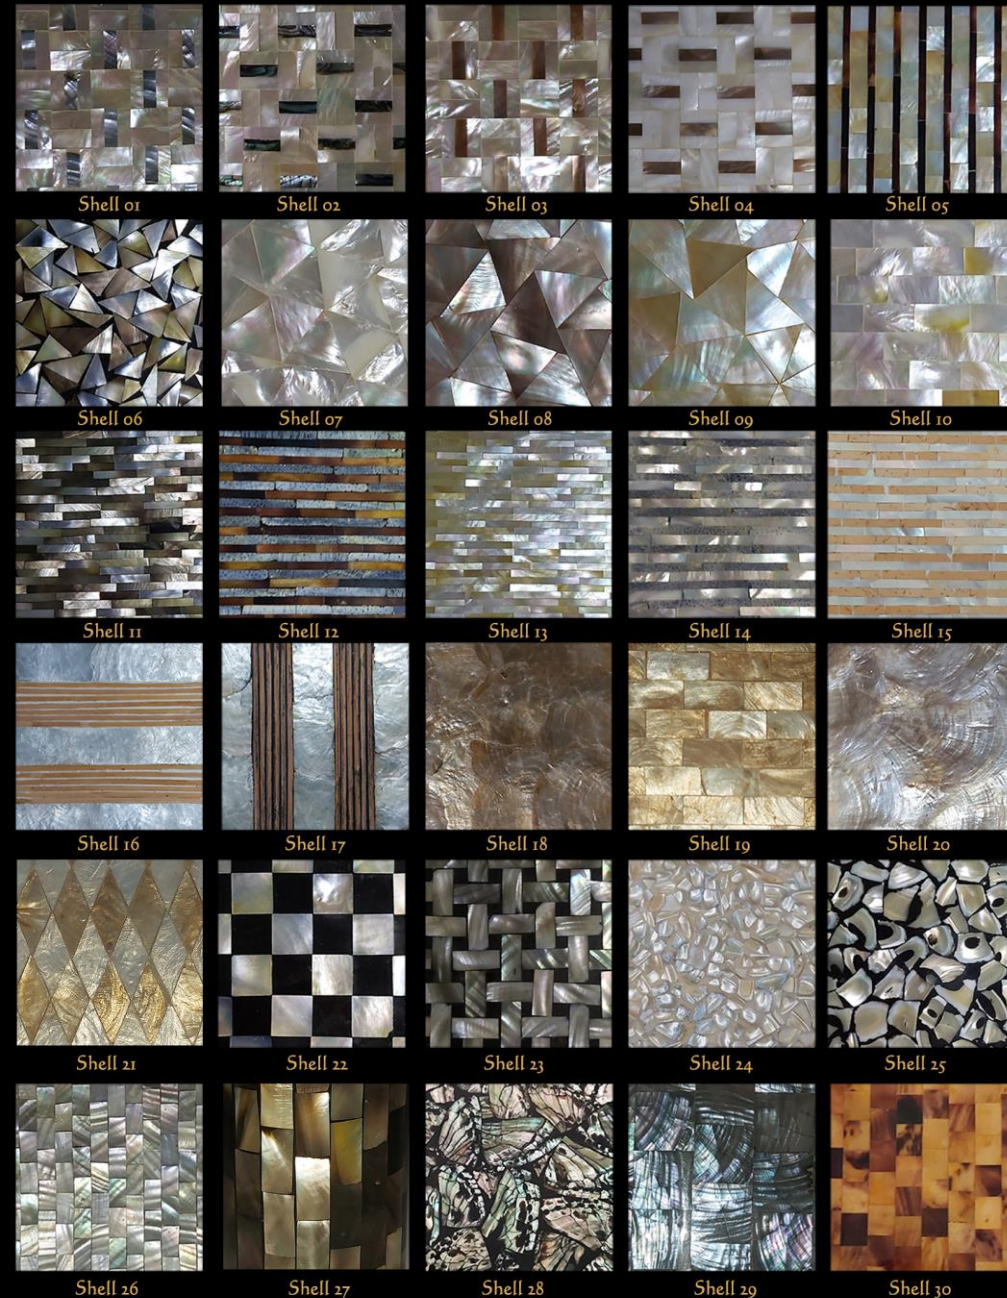

Due to space we have not included swatchcards of the many genuine & synthetic leathers, & textiles - these can be sent on request.

It's all in the detail and customisation. We laser or print logos and intricate patterns directly onto the folders, or onto wood or metal inlays. Logos etched on stainless and copper plates. We also embroider onto textile & leather

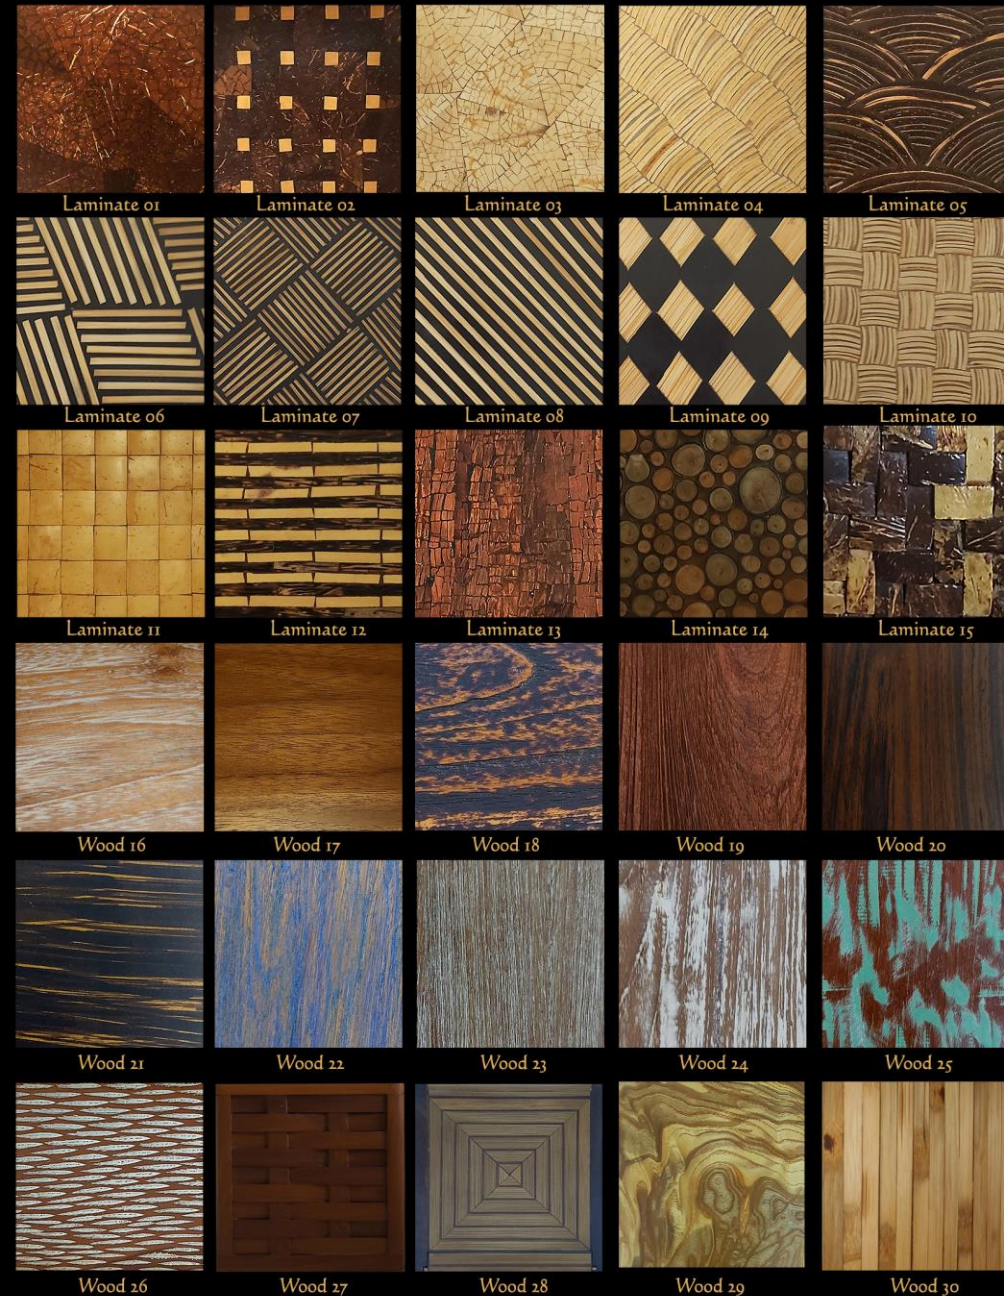

We are limited only by our imagination - challenge us to create something unique for you!

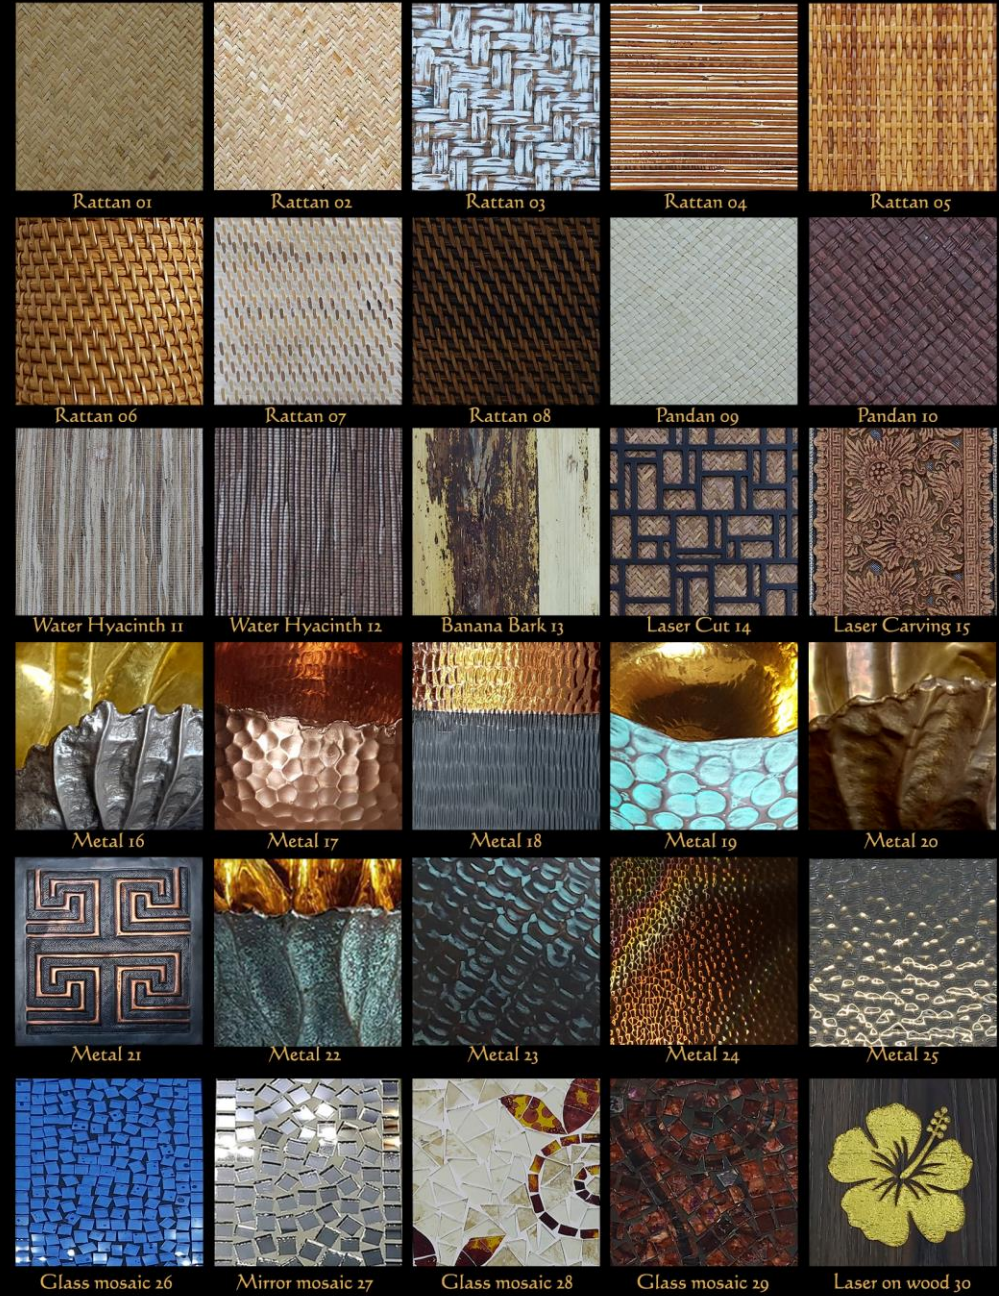

A multitude of exquisite shells in many combinations and patterns, laminated in resin for a tough finish for folders or accessories
